This submission is made in accordance with 37 C.F.R. §§ 1.97 and 1.98 and § 609 of the Manual of Patent Examining Procedure.

The art listed therein, while believed to be of some relevance, is not necessarily considered to teach or suggest any aspect of the invention described and claimed in the above-identified patent application. Applicant further reserves the right to question the relevance, materiality, and/or prior art status of the references in whole, in part, or in combination subsequent to the filing of this information disclosure statement. Any such markings were either present on the copies of the references obtained by the associated individuals, or were made thereon during the study of the references by the associated individuals.

The Examiner is respectfully requested to consider each of the cited references, to indicate such consideration by initialing in the space provided next to each reference on the enclosed Form PTO-1449 (modified), to sign the initialed Form PTO-1449 (modified), and to return a copy of the same with the next communication to the Applicant(s).
